

Logging in to UF e-Learning

UF e-Learning is the Learning Management System (LMS) used by the University of Florida to deliver educational content and assessments.

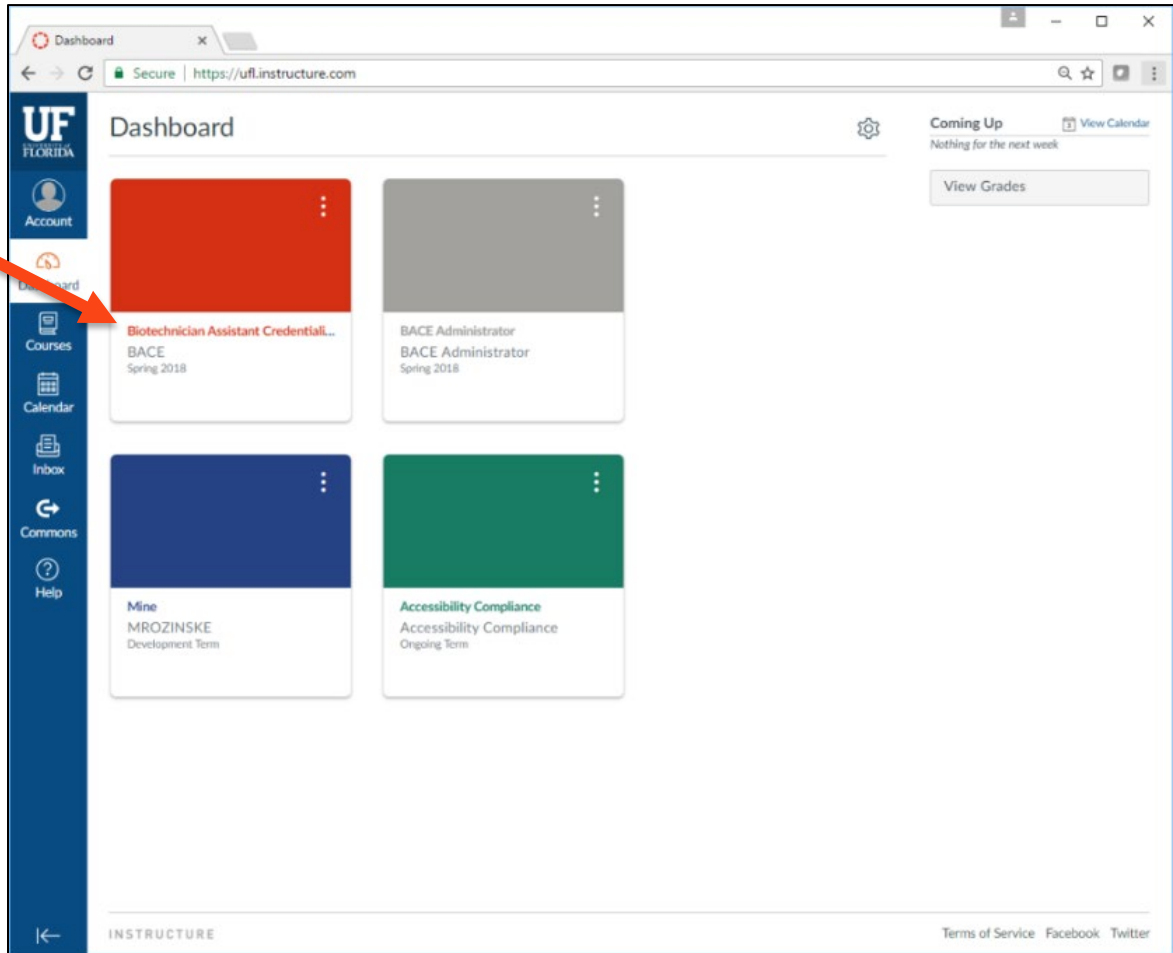

1. To access UF e-Learning go to <http://elearning.ufl.edu> and click the orange “LOG IN TO E-LEARNING” button.

2. Enter your GatorLink Username and Password, and click the “LOGIN” button.

3. Select the appropriate course tile, "Biotechnician Assistant Credentialing Exam," from the Dashboard.

Administrative Certifications and BACE Credential Badges through Badgr

Sharing Badges in Canvas

Candidates may share their badge to social media from within Canvas. To view and then share the badges you have earned in Canvas, select Badges from the course menu. The badges you have earned will appear on screen. Click the badge you want to share to open the Badge view.

The screenshot shows the 'My Learning Path' page in the Badgr interface. The left sidebar contains a menu with items: Home, Announcements, Assignments, Discussions, Grades, People, Pages, Files, Syllabus, Quizzes, Modules, Conferences, Collaborations, and Badges. The 'Badges' item is highlighted in blue. The main content area shows a grid of four badge categories, each with a checkmark and a corresponding badge image: 'Intro to Flipped and Blended Learning', 'Blended Learning Lessons', 'Flipped Learning Lessons', and 'Blended and Flipped Wrap Up'. Below each category is a larger image of the badge and its title.

Next, select the social network button where you would like to share your badge. A dialog box will open prompting you for your account credentials.

The dialog box titled 'Flipped Classroom Lesson...' shows a success message: 'Successfully created a flipped lesson plan.' It features the 'Flipped Learning Lesson Author' badge image and a 'Download' button. To the right, it lists the recipient as 'student@email.com' and provides the criteria URL: <https://api.badgr.io/public/badges/g-ZaHNQ2QEibWU8lseNnzA/criteria>. The issuer is identified as 'Badgr University badgruniversity@email.com'. At the bottom, there are 'Share on' buttons for LinkedIn, Facebook, and Twitter. A red arrow points to these social media sharing options.

Sharing Badges in Badgr

Candidates may share their badge via URL from within Badgr by creating an account. To do this, you will need to create a Badgr account.

1. Begin by going to <https://badgr.com> (Badgr is not compatible with Internet Explorer).
2. Select "Create an Account."

The easiest way to issue and earn verifiable credentials based on the Open Badges standard.

Create an Account

Request a Demo

You **MUST** create your Badgr account using the same email address that was used to create your UF e-Learning account. This email address is "yourgatorlinkusername@ufl.edu". For example, for the GatorLink username Gator2018, the email address would be Gator2018@ufl.edu. Note: if you use another email address, or sign up using social media to create the account, you will NOT see the BACE badge.

EMAIL

FIRST NAME

LAST NAME

PASSWORD (MUST BE AT LEAST 6 CHARACTERS)

CONFIRM PASSWORD

I have read and agree to the [Terms of Service](#).

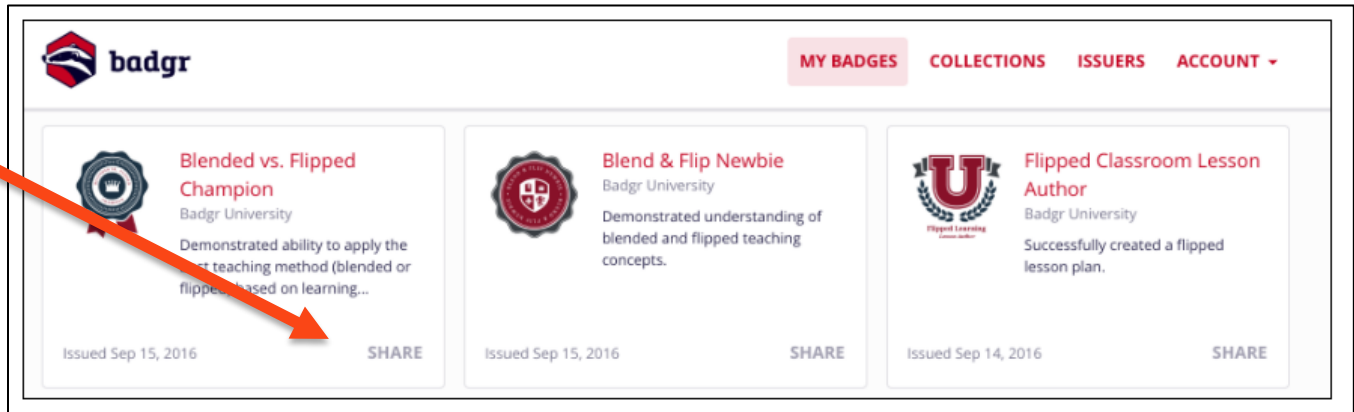

Yes! I would like to receive email updates about products & services, upcoming webinars, news and events from Badgr.

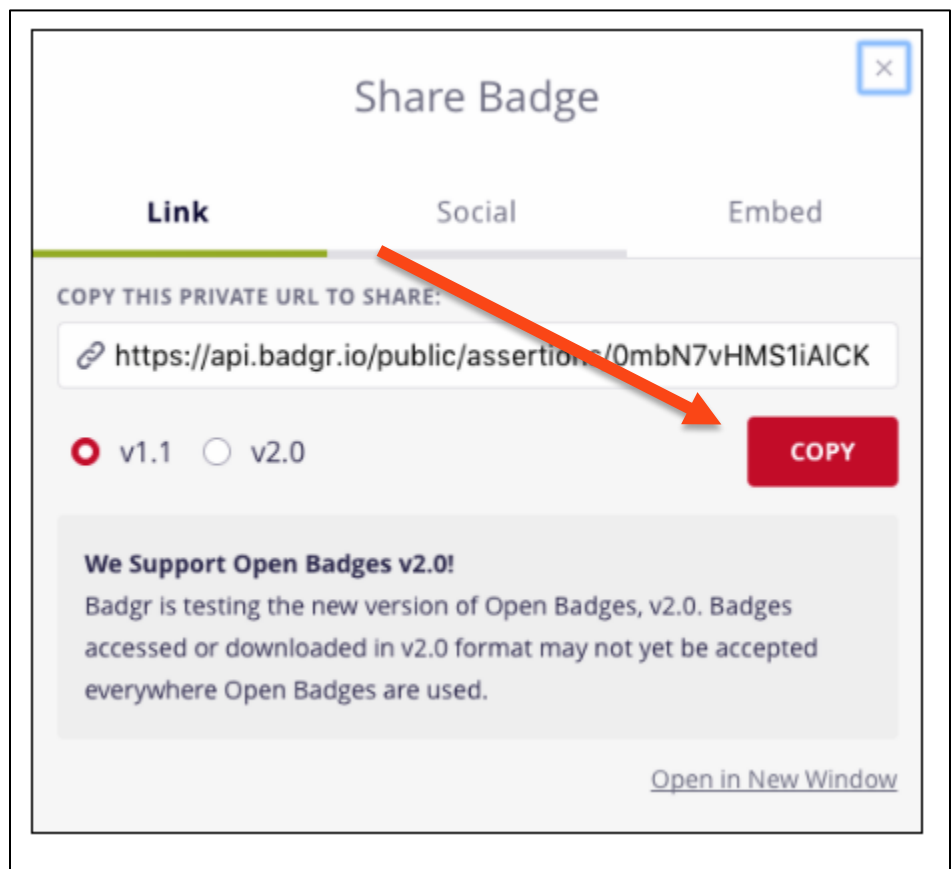

CREATE ACCOUNT

3. Once the account has been created, proceed to the My Badges tab.

4. Select the “SHARE” button on the badge.

5. Select “COPY”.

6. Paste the URL where you would like to share a link to your badge (e.g. email, text, etc.).
