

Included in BACE Registration

TOOLS FOR A SUCCESSFUL TESTING SEASON

PRACTICE EXAMS

Two practice exams are included in every individual's registration. These practice exams reflect both the knowledge and practical exam portions, provide extra math practice, and a learning objective rank to gauge student progress.

EDUCATOR FORUMS

Quarterly forums presented by fellow educators ranging in topics from incorporating math into your instruction, to building and engaging an industry advisory board. Join in this opportunity to connect with fellow biotech educators and share best practices!

EXAM RESULTS ANALYSIS

This includes 4 unique reports:

1. BACE national statistics
2. Exam site's comparable results
3. Individual score breakdowns
4. Category results for each candidate

CANDIDATE LEARNING TOOLS

Our candidate resources located on our website provide study materials for BACE candidates. The learning tools include a variety of topics like serial dilutions, PCR, cloning, basic biotechnology concepts, protein structures, and industry practices.

BIOTECH CAREER READINESS

This section includes activities to prepare BACE candidates for interviews. We've also partnered with Biotech Careers to provide the most up to date career opportunities and information to BACE candidates. (<https://www.biotech-careers.org>)
